SECURE DATA WIPING CERTIFICATE

Corporate Record of Software-Based Secure Wiping Execution

Certificate ID: SW-20260417-032913 **Generated On: 2026-04-17 03:29:13**

This certifies that the specified folder was processed through the configured secure wiping workflow.

CORPORATE WIPE EXECUTION SUMMARY

System Name	Secure Data Wiping System

Verification Result: SUCCESSFUL

Post-wipe validation status was recorded for the selected folder.

Compliance Note

This certificate confirms a software-based overwrite workflow for academic and project demonstration. Results on SSDs may vary because of wear leveling, controller firmware, and storage architecture behavior.

Verification Status	SUCCESSFUL
Wipe Method	Multi-pass software overwrite

Authorized By
Secure Wipe Administrator

Issued By
Secure Data Wiping System

Electronically generated corporate certificate for secure data wiping workflow
